JBL MicroCalcium Mineral supplementary food for all reptiles

JBL TerraVit Powder Vitamins and trace elements for terrarium animals

Especially for the nutritional requirements of turtles Most turtles and terrapins are omnivores. They particularly like to eat fish and water animals. To a lesser extent they like to eat aquatic plants. JBL offers a comprehensive range for the species-appropriate diet for turtles and terrapins, to meet the respective requirements of the animals' size. Dried fish and crustaceans, as well as algae are ranked first.

#### Other good reasons to feed JBL food

Impressive palatability for turtles and terrapins: practice research including feeds in the wild / using high-value fish protein (no cheap fish meal is used) / no vitamin loss thanks to airtight packaging.

#### Feeding recommendations

Turtles: young, growing animals: In the water area 1 to 2 times a day as much as they eat within approx. 10 minutes, adult animals: 2 to 3 feeds per week. Tortoises: only as an occasional treat
