

JBL ProSilent Aeras Micro S3

Air stone set for fine air bubbles in aquariums

Suitable for:

- Air pump accessory for aquariums: air stone made of quartz sand mixture with extra-fine pores - for extra fine air bubbles
- Simply connect air stone to the air pump (not included), place inside the aquarium
- Large surface (26 x 14 mm) because of cylindrical shape
- For fresh and saltwater aquariums: 3 coloured air stones
- Package contents: 3 air stones for fine air bubbles, Ø 14 mm

Product information

Air pump accessory for aquariums

At night an air pump with air stone is an advantage for the aquarium because plants without light don't produce oxygen, but continue to consume it. In thinly planted aquariums the air pump with air stone supplies the necessary water circulation. When disease is present in the aquarium the air pump increases the oxygen level in the water, which is essential for many medications.

Simple connection

Connect the air stone to the hose of the air pump (not included), place the air stone inside the aquarium.
