

# JBL GoldPearls

### Premium granulate as main food for veiltails

Suitable for: 🔍

- Complete nutrition, ideal growth of goldfish and veiltails: selected raw ingredients to meet the demands of all goldfish varieties
- Nutritious and easy to digest: ideal feeding conditions through sinking food pellets for fish species min. 8 cm in all water layers. No air swallowing thanks to sinking food pellets.
- No water clouding: reduced algae growth thanks to balanced phosphate content, better water quality due to better digestibility of the food, which reduces fish excrement
- Fish choose JBL food: 98.5% of all fish species ate the JBL food immediately during research expeditions in freshwaters. No processing of cheap fish meal, fish meat from fish fillet production for humans is used
- Contents: premium main food, for aquarium fish. After opening to be used up within 4 months. In highquality packaging with foil seal, can be stored unopened for 3 years

JBL Holiday Red Complete holiday food for goldfish

JBL Atvitol Multivitamin drops for aquarium fish

JBL AutoFood BLACK Black automatic feeder for aquarium fish

JBL AutoFood WHITE White automatic feeder for aquarium fish

## JBL GoldPearls Product information

Animal welfare is important to us

No processing of cheap fish meal, uses fish meat from fish fillet production with the motto: The large fillet for humans and the small fillet for our aquarium fish.

For years JBL has supported the largest international organisation for the protection of sharks "Shark Project".

Other good reasons to use JBL fish food:

- The use of pure fish protein without cheap fish meal - Optimal protein/fat ratio

- Mainly proteins from water animals
- Reduction of algae growth and optimum fish growth thanks to adapted phosphate content
  Impressive acceptance on the part of fish: research expeditions with fish feeding trials in the wild
- Very slight vitamin loss due to airtight sealed packaging

#### Ahead through research

The results of the JBL research expeditions, combined with the expertise of the JBL research and development team, has resulted in optimal and balanced food mixtures made of high-quality ingredients.

Feeding recommendation Feed 1 – 2 times a day, as much as can be eaten within a few minutes. Young, growing fish 3 – 4 times a day in the same way.

Unopened the food tins can be kept for 3 years, after opening use up within 4 months, since valuable vitamins will deteriorate. Complements complete food and available separately: supplementary food and treats.
