

JBL PROFLORA Ferropol 24

Daily plant fertiliser for freshwater aquariums

Suitable for:

- The daily feed for luxuriant aquarium plants: daily fertiliser for freshwater aquariums
- Optimum, targeted care, provides all vital trace elements which cannot be provided by long-term fertilisers
- Vigorous plant growth, no deficiency symptoms: optimal supply with essential trace elements
- Optimal promotion of plant growth means less algae growth. No phosphates and nitrates.
- Contents: 1 packet Ferropol 24. Use: 1 drop daily/50 l water

JBL PROFLORA Ferropol 24

Product information

Nutrition for aquarium plants

Healthy plants prevent algae growth, supply oxygen, remove pollutants, offer hiding places and reduce pathogens.

Healthy plants = healthy fish

For the plants to flourish the following demands have to be met:

light as an energy source for photosynthesis

CO₂, nutrients and trace elements as growth promoters.

JBL fertilisers supply the plants with all main nutrients and essential trace elements. This way the plants can absorb all the required nutrients they need over the leaves and roots, and deficiency symptoms (e. g. iron deficiency) are thus prevented.
