

JBL Aqua-T Triumph

Glass pane cleaner with spare blades and rubber scraper

Suitable for:

- Effortless removal of stubborn deposits on the aquarium pane: glass pane cleaner with stainless steel blade and rubber scraper (= protective cap)
- Easy handling thanks to wide blade: 14 cm, also suitable for curved front panes
- Safe: rubber scraper serves as protection cap, no damage to the aquarium's silicon seal
- Spare blades available separately
- Package contents: 1 glass pane cleaner incl. stainless steel blade and blade protection (= rubber scraper)

Product information

Maintenance and cleaning

Food and plant remains and metabolic products pollute the aquarium water. By cleaning the tank and accessories and by enacting regular partial water changes, your aquarium creatures will stay happy and you'll get more out of your aquarium.

Effortless removal of persistent deposits

The JBL glass pane cleaner Aqua-T Triumph enables an easy removal of stubborn algae from the aquarium panes. The silicon seal of the aquarium remains unscathed thanks to the small distance between the blade and the grip of the cleaner. The Aqua-T is suitable for freshwater and marine aquariums. The protective cap prevents injuries when not in use and also serves as rubber scraper for cleaning the outside of the aquarium pane.

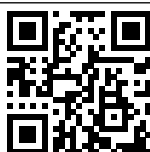

JBL Aqua-T Triumph spare blades

The Aqua-T Triumph's wide blade makes it possible to clean large surfaces effectively and quickly. Its protective cap prevents injuries when not in use and also serves as a rubber scraper for cleaning the outside of the aquarium pane.

What's worth bearing in mind when cleaning your panes?

The glass aquarium panes are, in contrast to the plastic (acrylic/plexiglass) panes, harder than steel. This means they cannot be scratched with blades or metal pads. However, the gravel and sand in the aquarium is harder and can cause scratches if it gets between the cleaner and the glass. So be careful when you're getting close to the ground with the glass cleaner.

The silicone seams of your aquarium are also at risk. Avoid damaging the silicone seams with pane cleaning blades. Use a care glove (JBL PROSCAPE CLEANING GLOVE) for cleaning these sensitive areas.
