

JBL PROFLORA CO2 ADAPT U - M

CO2 conversion adapter disposable to refillable bottle

Suitable for: 

- With the help of this adapter, pressure reducers can be mounted from disposable CO2 cylinders (U system) to refillable CO2 cylinders (M system)
- Screw adapter onto the JBL pressure reducer for disposable cylinders (thread M10x1) using a 6 mm Allen key. The pressure reducer then fits on refillable CO2 cylinders (thread W 21.8 x 1/14)
- By unscrewing the adapter, the pressure reducer then fits again on all disposable CO2 cylinders with a M10x1 thread
- With the JBL pressure reducers PROFLORA CO2 REGULATOR BASIC/ADVANCED/PROFESSIONAL/m001 this adapter is already fitted and can be unscrewed at any time for disposable cylinders
- Package contents: 1 CO2 adapter for JBL disposable cylinder pressure reducers to make them suitable for refillable CO2 cylinders

Product information

Disposable or reusable CO2 cylinder?

There are 2 different cylinder types: disposable cylinders that are disposed of and recycled after emptying and reusable cylinders that can be refilled again and again. Many pet shops and gas companies can carry out the refilling. If you live in a region where refilling is a problem, the disposable cylinder can be an alternative. Should the refilling situation improve, you can always convert the disposable pressure reducer into a reusable pressure reducer in 2 minutes by unscrewing the adapter (JBL PROFLORA ADAPT U-M).

Thread:

JBL refillable CO2 cylinders and many other refillable CO2 cylinders have the following thread connection: W 21.8x1/14 JBL

Disposable CO2 cylinders and some others (not all!) have the following thread connection: M 10x1
