- No release of harmful substances: 100% water neutral synthetic material
- Package contents: 1 replacement foam cartridge

JBL CP i40/TekAir UniBloc blue

Product information

Clean and healthy water

Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with various filters and filter materials. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water.
