

JBL TerraControl Solar

Solar-powered thermometer + hygrometer for terrariums

Suitable for:  

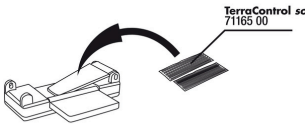

- Swivelling, digital thermometer and hygrometer for checking temperature and relative humidity conveniently in terrariums, power supplied by solar cell and buffer battery
- Large temperature and humidity measuring range: -30 to +50 °C, humidity range: 20 to 99 % relative humidity
- High precision: temperature +/- 1 °C (from 0 to +30 °C), other measuring range +/- 3 °C, humidity +/- 5 %
- Convenient to mount: double-sided adhesive tape, fix mounting plate left or right.
- Package contents: solar-powered thermometer and hygrometer, Terra Control Solar, incl. buffer battery and double-sided adhesive tape.

Product information

Easy monitoring

Depending on the origin and species the terrarium animals need specific humidity and temperature conditions for an ideal keeping. These can easily be checked with Terra Control Solar.

Terra Control Solar

The Terra Control Solar, a digital thermometer and hygrometer, ensures a convenient checking of temperature and relative humidity in the terrarium. The power is supplied by a solar cell. A buffer battery ensures the display is visible after the light is switched off.

Convenient to mount

Terra Control Solar can easily be fixed with a double sided adhesive tape at the desired place. The mounting plate can be fixed on the left or right side of the thermometer/hygrometer, as required. Tip: because warm air rises, the use of 2 devices is recommended; one device at the bottom and the other one in the upper area.

Large temperature and humidity measuring range

Temperature range: -30 to +50 °C. Humidity range: 20 to 99 % relative humidity – HIGH PRECISION –
From 0 to + 30 °C: +/- 1 °C Other temperature range: +/- 3 ° humidity: +/- 5 %
