

Colour enhancing food for professional feeding of all small aquarium fish.

UK

- Semi-floating, bite size pieces for fish from all water zones.
- Selected raw ingredients with valuable carotinoids and omega 3 promote brilliant colouration.
- Strong, healthy growth with little water pollution due to naturally balanced protein-fat ratio.

Recommended feeding: Feed the fish once or twice a day with only as much food as the fish can consume within a few minutes. Young fish should be fed 3 - 4 times a day in the same manner.

Ingredients: molluscs and crustaceans, cereals, fish and fish by-products, vegetable by-products, vegetables, vegetable protein extracts, oils and fats.

Staple food for aquarium fish.

Additives: colourings, antioxidant E306 (natural vitamin E extracts).
