## Spare parts

JBL bio80/160 seal

JBL Bio160 adhesive strip

JBL bio80/160 filter insert

JBL Bio80/160 reaction vessel

JBL bio80/160 thermal jacket

# JBL ProFlora Bio160

## Product information

### Nutrition for aquarium plants

Healthy plants are important in every aquarium. Plants provide the aquarium with vital oxygen for the aquarium inhabitants, prevent algae growth and remove problem-causing substances.

### Healthy plants = healthy fish

Healthy plants prevent algae growth, supply oxygen, remove pollutants, offer hiding places and reduce pathogens.

For the plants to flourish the following demands need to be met:

Light as an energy source for the photosynthesis of CO<sub>2</sub>, nutrients and trace elements to promote growth.

JBL plant fertilisers supply the plants with all their main nutrients and essential trace elements through the water. This way the plants can absorb all the required nutrients they need over the leaves and roots.
