

# Clean T

## Glass cleaner for terrariums

- Powerful cleaner for all terrarium glass panels
- Harmless to terrarium animals
- Automatically removes lime deposits from glass panels

**Application:** Briefly spray the dirty glass with JBL Clean T and then wipe dry with a soft, lint-free rag or JBL WishWash. In case of thick lime deposits, please let soak a few minutes and then rub dry. Repeat if necessary. For thick lime deposits above the water

level of water vessels in the terrarium: Spray directly onto a rag or JBL WishWash and then rub off the lime deposits.

Ingredients in accordance with the EU Regulation: Aqua deion., cationic tensides (< 5 %), anionic tensides (< 5 %), E102

Full declaration: Aqua deion., cationic tensides (0.1 %), anionic tensides (0.055 %).
