

The right food for your fish

COMMUNITY AQUARIUM

MAIN FOOD

JBL NovoBel
JBL NovoGranoMix mini
JBL NovoGranoMix

JBL Gala
JBL Grana
JBL NovoTab

SUPPLEMENTARY FOOD

JBL NovoVert
JBL NovoGranoColor

JBL NovoGranoVert mini
JBL NovoGranoColor mini

TREATS

JBL NovoFil
JBL NovoFex
JBL NovoDaph
JBL PlanktonPur M

JBL Tabis
Optimisation: JBL Atvitrol
(Add 2 x a week to the food before it is fed to the fish, please)

SPECIALITIES

Caution!
Zebra plecos are not plant-eaters! They need a mixed diet and love bloodworm!

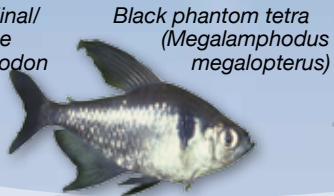

Silver dollars are strict plant-eaters and need **JBL NovoVert / NovoGranoVert** as a staple food

TETRA, BARBS, DANIO

Tetra

*Tetra cardinal /
néon rouge
(Paracheirodon
axelrodi)*

*Black phantom tetra
(Megalamphodus
megalopterus)*

(*Colisa lalia*)

Pearl gourami
(*Trichogaster leeri*)

Three-spot gourami
(*Trichogaster trichopterus*)

Kissing gourami
(*Helostoma temminckii*)

Paradise fish
(*Macropodus opercularis*)

MAIN FOOD

JBL NovoBetta
JBL NovoGranoMix mini
JBL NovoGranoColor

mini
JBL NovoBel
JBL Gala

SUPPLEMENTARY FOOD

JBL Krill

JBL PlanktonPur M

TREATS

JBL NovoFil
JBL NovoTab

JBL NovoFex
JBL NovoDaph

SPECIALITIES

Kissing Gourami:
Filters plankton from the water (JBL ArtemioPur) and eats plants (JBL NovoVert, JBL NovoGranoVert mini, JBL NovoFect). Pikeheads are strictly predators, which usually only eat live food.

GOLDFISH & FANTAILS

Goldfish
(*Carassius auratus*)

Oranda

Sarasa comet

Royal Ryukin

MAIN FOOD

JBL GoldPearls
JBL NovoRed

JBL NovoPearl
JBL GoldPearls mini

SUPPLEMENTARY FOOD

JBL NovoVert
JBL NovoGranoVert mini

JBL NovoFect

TREATS

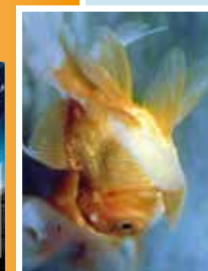

JBL Krill
JBL NovoNovoDaph
JBL PlanktonPur M

SPECIALITIES

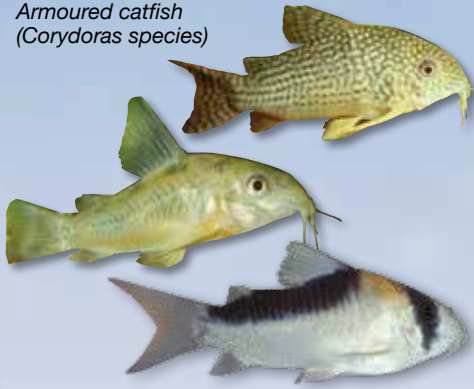

Standard Goldfish and Fancy Goldfish often swallow air when they eat food which floats on the surface of the water (flakes). This leaves them floating helplessly at the surface.

Better to feed food which sinks, such as **JBL GoldPearls** or **JBL GoldPearls mini**.

CATFISH & LOACHES

Armoured catfish
(Corydoras species)

MAIN FOOD

JBL NovoTab
JBL Tabis

SUPPLEMENTARY FOOD

JBL NovoFect
JBL NovoFex
(Pre-soak to make it sink)

Herbivorous suckermouth catfish
(Ancistrus, Plecostomus,
Peckoltia species)

MAIN FOOD

JBL NovoPleco
JBL NovoPlecoXL
JBL NovoFect

SUPPLEMENTARY FOOD

JBL Tabis

Omnivorous catfish
(zebra pleco (Hypancistrus zebra)
Synodontis catfish species))

MAIN FOOD

JBL NovoTab
JBL NovoFil
(softened on the bottom)
JBL NovoFex
(softened on the bottom)

Pre-soak to make it sink

SUPPLEMENTARY FOOD

JBL PlanktonPur M

All sinking types of food.
These are omnivorous, not herbivorous!

Loaches (Botia species,
coolie loach)

MAIN FOOD

JBL NovoFect
JBL Spirulina
JBL NovoTab
JBL NovoGranoMix

SUPPLEMENTARY FOOD

JBL Gala
JBL Krill
JBL Tabis
JBL NovoFex (Pre-soak to make it sink)

OTHER FISH & YOUNG FISH

Young fish

Puffer fish
(Tetraodon species)

Fire eel & reed fish
(Mastacembelus species & Erpetoichthys)

Butterfly fish & panchax (Pantodon bucholzi & Aplocheilichthys species)

Killi fish & rainbowfish
(Aphyosemion & Melanotaenia species)

MAIN FOOD According to size:

- Newly hatched: **JBL ArtemioFluid,**
JBL ArtemioPur
JBL NobilFluid
- Up to 15 mm: **JBL NovoTom Artemia,**
JBL NovoBaby - # 1
- 15-30 mm: **JBL NovoBaby -# 2**
JBL NovoBea
- over 30 mm: **JBL NovoBaby - # 3**
JBL NovoBea

MAIN FOOD

JBL NovoTab
Live snails

SUPPLEMENTARY FOOD

JBL NovoGranoMix
Frozen food,
Live food

MAIN FOOD

JBL NovoGranoMix
JBL NovoTab
JBL NovoFex
(Pre-soak to make it sink)

(Pre-soak to
make it sink)

MAIN FOOD

JBL Gala
JBL NovoColor
JBL NovoBel

SUPPLEMENTARY FOOD

JBL NovoFil
(at the surface of the water)
JBL NovoFex
(at the surface of the water)

MAIN FOOD
