

JBL PROSCAPE Mg MACROELEMENTS

Magnesium plant fertiliser for aquascaping

Suitable for:

- Additional care for plants: supplementary magnesium fertiliser for aquascaping aquariums
- Dosing is dependent on intensity of illumination, Co2 supply and consumption.
- Healthy plant growth, prevents deficiency symptoms, ideal magnesium values
- Checking of dosage with JBL magnesium test for freshwater
- Package contents: 1 bottle ProScape MG Macroelements. Use daily: 6 ml/100 l for e.g. high power light with CO2, under weak light conditions without CO2: 2 ml/100 l weekly

Product information

Underwater gardener

Aquascaping is the term used to describe the technique of designing aquarium landscapes. This is the place for plant compositions, for the reproduction of a landscape above water or for natural biotopes. An aquascaping aquarium contains no or few fish and invertebrates. This way the nutrient supply for plants is reduced and their growth is limited. Nitrogens, phosphorus and other minerals become scarce substances and need precise re-dosing. The plants need light for their healthy growth in a beautiful underwater landscape, CO2 and the right nutrients.

Please use the dosing calculator at www.proscape.de, to determine the exact fertiliser amount by taking into account the initial values of the aquarium water.

Product details

Article data	
Product name	JBL PROSCAPE Mg MACROELEMENTS 250 ml
Art. No.	2112200
EAN number	4014162211224
EAN as barcode	
Content	250 ml
-	-
Expiry months	60
RRP incl. VAT	14,16 €
Base price	56,64 €
Nominal filling quantity	250 ml
Base quantity	1 l
Gross weight	383 g
Net weight	258 g
Weight change	1000
