JBL PROPOND AUTUMN M

Autumn food for medium-sized koi

Suitable for:

- Complete food with the right protein/fat ratio 3:1 in accordance with the NEO index which takes temperature, function, animal size and age into account
- With wheat, salmon, fish oil and krill for vigorous and healthy pond fish (at 10-20 °C water temperature)
- Food size M (6 mm) for fish from 35-55 cm
- Sinking wafers with 28 % protein, 10 % fat, 2 % crude fibre and 6 % crude ash
- Food wafers in resealable bag (air, water and lightproof) to preserve the quality

Product information

NEO intex literally means: natural, energy-optimised nutrition. Behind this lies the ratio of proteins to fats in the food. Looking at the season alone, the fish would only need half as much protein in winter (2:1) as in summer (4:1). But because not only the season (meaning the water temperature), but also the size and age of the fish, and food function (e.g. growth food = ProPond Growt) play determining roles, the der NEO index has been developed to deal with all these factors in one.
