

JBL PROCRISTAL UV-C Compact plus 11 W

Compact UV-C water clarifier against water cloudiness

Suitable for:

JBL		Anwendung / Application / Utilization			
5W	Teich / Pond / Bassin / Vijver	Aquarium		Vol. (l)	(l/h)
		Vol. (l)	(l/h)		
11W	Partial sterilisation	-	-	100 - 300	100 - 300
	Partial sterilisation	-	-	50 - 100	100 - 300
18W	Partial sterilisation	-	-	200 - 800	200 - 500
	Partial sterilisation	-	-	100 - 200	200 - 500
36W	Partial sterilisation	10,000 - 15,000	2,000 - 4,000	800 - 1,500	300 - 500
	Partial sterilisation	2,000 - 4,000	2,000 - 4,000	200 - 400	300 - 500
54W	Partial sterilisation	20,000 - 30,000	2,000 - 4,000	1,500 - 3,000	400 - 1,000
	Partial sterilisation	4,000 - 8,000	2,000 - 4,000	300 - 600	400 - 1,000

- Cristal-clear and healthy water: 11 W UV-C clarifier for the quick and efficient elimination of greenish and whitish cloudiness in freshwater and marine aquariums
- Space-saving assembly: connect to external filter. Inlet and outlet are positioned for practical use. Shortest installation length: 42 cm
- Partial sterilisation for aquariums up to 800 litres (pump max. 500 l/h), to combat floating algae up to 200 l in the aquarium (pump max. 500 l/h). Partial sterilisation reduces the risk of disease. Floating algae turn the water green
- TÜV tested, safety switch: UV-C bulb switches off automatically when the device is opened. Sturdy, UV-resistant casing, 2- glass-cylinder design
- Package contents: complete UV-C device, 2 m cable, UV-C bulb 11 W, socket: G23, wall mount, screws, nozzle hose connections for 16-19 mm hoses. Guarantee: 2 years (+2 years upon registration of the product)

JBL PROCRISTAL UV-C Compact plus 11 W

Accessories

JBL Replacement lamp UV-C

Replacement lamp for UV-C water clarifier

JBL PROCRISTAL UV-C QuickConnect

Connects two JBL ProCristal UV-C water clarifiers

JBL PROCRISTAL UV-C ElbowConnect

90° elbow for JBL ProCristal UV-C devices

JBL ProFlow t300

Submersible pump with 80-300 l/h for water circulation

JBL ProFlow t500

Submersible pump 200-500 l/h for water circulation

JBL ProFlow u800

Universal pump with 900 l/h for circulation of water

JBL ProFlow u1100

Universal pump with 1200 l/h for circulation of water

JBL ProFlow u2000

Universal pump with 2000 l/h for circulation of water

JBL adapter UK for all circular plugs

JBL double stopcock+ quick coupling

For connecting, disconnecting & shutting off hoses

Product information

Crystal-clear and healthy water

Poor light conditions, over-fertilisation or even a surplus of nutrients can have negative effects on the aquarium water and may promote algae growth. Floating algae lead to green, bacteria to white clouding. The JBL water clarifier eliminates cloudiness caused by bacteria and floating algae. The aquarium water passes through the sturdy, UV-resistant casing of the clarifier. The UV radiation kills off bacteria, other germs and floating algae as the water passes through. The efficiency of this UV-C water clarifier is particularly high, as the glass bulb is surrounded by a polished, reflective stainless steel foil, which reflects the UV-C radiation and thus doubles the efficiency. This can also help to eliminate persistent algae, such as thread algae, since their spores are also largely killed off.

No harmful side effects

No change of the water values / no negative influence on the essential cleansing bacteria in the filter.

Easy to install

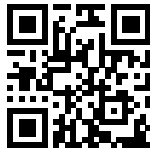

Connect the water clarifier to the external filter or a separate water pump. Thanks to the 90° elbow included in the pack any installation position is possible.

Safety

The JBL UV-C Water Clarifier is TÜV tested and has a safety switch for an automatic switch off when the device is opened. The casing is UV-resistant, consists of sturdy walls and has an LED light that indicates whether the UV-C bulb is switched on.

Difference to the previous model JBL ProCristal UV-C Compact:

The function indicator light is now mounted on the flat side of the electrical unit and the microswitch for the automatic switch-off of the burner when the housing is opened (if the plug has not been removed) has been replaced by a magnetic safety switch. This means that the electrical units of the previous models (Compact) do NOT fit the new ones (Compact Plus) and vice versa.
