JBL PROFLORA CO2 CYLINDER WALLMOUNT

Wall mount for CO2 cylinders with safety bracket

Suitable for:

- To securely fasten all 500 g CO2 refillable cylinders, with a screw-on safety bracket (cage)
- Screw the wall mount to the furniture or wall (screws included). Hang the CO2 cylinder by inserting the upper part of the safety bracket into the wall mount
- Because CO2 gas liquefies under pressure, CO2 pressurised gas cylinders must stand upright during operation. This is achieved with the wall bracket - alternatively a stand can be used (JBL PROFLORA CO2 STAND)
- Wall mount made of sturdy plastic
- Package contents: 1 wall mount with fastening screws

JBL PROFLORA CO2 CYLINDER WALLMOUNT

Product information

Carbon dioxide (CO2) is an odourless and colourless gas that becomes liquid under pressure in the CO2 storage cylinders. That's why the CO2 storage cylinders must be in an upright position during operation. Disposable CO2 cylinders (U system) and the 2 kg refillable CO2 cylinder (JBL PROFLORA CO2 CYLINDER 2000 M) already have a "built-in" stand. The 500 g refillable CO2 cylinders, on the other hand, have a "round" base and therefore need a wall mount or a separate stand (JBL PROFLORA CO2 STAND).
