JBL Turtle Sun Aqua

Product information

Especially for the nutritional requirements of turtles
Most turtles and terrapins are omnivores. They particularly like to eat fish and water animals. To a lesser extent they like to eat aquatic plants. JBL offers a comprehensive range for the species-appropriate diet for turtles and terrapins, to meet the respective requirements of the animals' size. Dried fish and crustaceans, as well as algae are ranked first.

Balanced diet
To avoid deficiency symptoms in turtles the animals need a balanced diet. An unbalanced diet often leads to loss of appetite, swollen eyes or a softening of the shell.

Feed supplement for turtles
The JBL Turtle Sun Aqua contains a balanced vitamin complex in liquid form. A special emulsion process keeps all vitamins water-stable longer and ready to take effect, ensuring healthy turtles without deficiency symptoms.

Easy to use
Shake vigorously before using. Fill the enclosed measuring spoon with food sticks (sold separately) and add 10 to 20 drops of Turtle Sun Aqua. Finally feed to the turtles.
