## Product information

Especially for the nutritional requirements of tortoises  
JBL offers a comprehensive range for the species-appropriate diet for tortoises, to meet the respective requirements of the animals' size.

### Balanced diet

To avoid deficiency symptoms at tortoises the animals need a balanced diet. A unbalanced diet leads often to loss of appetite, swollen eyes or the softening of the shell.

### Feed supplement for tortoises

The JBL Tortoise Sun Terra contains a balanced vitamin complex in liquid form. A special emulsion process keeps all vitamins longer stable to water and readily available, ensuring vigorous tortoises without deficiency symptoms.

### Easy to use

Shake vigorously before using. Fill the enclosed measuring spoon with food sticks (sold separately) and add 10 to 20 drops of Tortoise Sun Terra. Finally feed to the turtoises.
