JBL WishWash Product information

Maintenance and cleaning Food and plant remains and metabolic products pollute the aquarium water. Cleaning your tank and accessories and carrying out regular partial water changes is good for your aquarium animals and makes having an aquarium more fun for you.

Easy to use JBL WishWash ensures crystal-clear panes from aquariums and terrariums. The wiped off dirt is soaked up by the cloth or the sponge instead of merely being spread in the water. The sponge removes algae and limescale from the inside of the aquarium pane and the cloth removes the dirt cleanly and easily from the outside. Free of chemicals.

Maintenance instructions

Wash with warm water up to 60 °C, wring out and leave to dry.
