

JBL CristalProfi e1501 greenline

External filter for aquariums from 200 - 700 litres

Suitable for:

- External filter for clean and healthy aquarium water: closed water circuit for aquariums with 200 -700 litres (100 - 150 cm)
- Fully equipped and ready to connect: built-in quick-start priming button, filter start without manual priming. Simple assembly
- Extremely smooth running at 1400 l/h pump performance, patented pre-filter system: high/biological filter performance with a volume of 12 l, water stop, 360° rotatable hose connections, easily exchangeable filter media
- TÜV tested, safe and energy-efficient: lower power consumption than previous models – constant performance
- Package contents: external filter unit for aquariums, JBL CristalProfi e1501 greenline, incl. hoses & pipes 16/22 mm, intake strainer, elbow, suction cups, filter media (bio-filter balls and bio-filter foam), dimensions (L/H/W): 200 x 235 x 475 mm

Product information

Clean and healthy water

Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with aquarium filters. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water. Filters also offer an ideal habitat for bacteria which decompose harmful substances.

Easy to install

The external filter is completely equipped and ready to connect. The built-in quick-start device makes the filter easy to install without the need for manual priming. The filter media are included in the contents.

Easy to clean

Replacing the easy to reach pre-filter means that you only rarely need to clean the rest of the filter. The large filter volume provides a high biological filtering performance involving several filter layers. The bio-filter balls inside have different diameters. This promotes the self-cleaning effect.

Energy efficient and safe

With only 20 W power consumption the CristalProfi e1501 offers substantial energy savings. At an effective, sustained water circulation the device consumes 27 % less power than comparable previous models. The patented hose connection bloc with a safety valve prevents water leakage when disconnecting the filter. JBL CristalProfi is TÜV tested.
