- Reliable fastening due to threaded hose connection
- Package content: water outlet set with 2-part spray bar for external filters, available for 12/16, 16/22 and 19/27 mm hoses

JBL OutSet spray

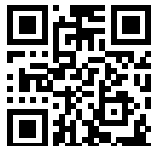

Product information

Clean and healthy water

Plant and food remains and metabolic substances lead to a deterioration of the quality of the water in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved with various filters. The filters suck in the aquarium water and remove the pollution and waste materials with the filter material from the water. Filters also offer an ideal habitat for many bacteria which is essential for the aquarium.

Easy to install

Simply connect the outlet pipe with the external filter. Place the outlet pipe in the aquarium.
