JBL PROCRISTAL i30

Internal filter for aquariums from 10-60 l

Suitable for:

- For crystal clear and oxygen-rich water: internal filter for aquariums from 10-60l with adjustable pump capacity up to 200 l/h
- Easy to install: attach suction cups to one side of the filter (both sides possible), press the filter to the desired position, position so that the water outlet is approx. 2 cm below the water surface
- Safe for small fish and shrimps: no sucking in thanks to fine-pored surface, water outlet rotatable in any position and adjustable to any capacity for each aquarium from 14 cm in height upwards
- TÜV tested, 4 years guarantee, energy saving (3.7 W), dimensions: (L x W x H) 7.6 x 4.1 x 12.0 cm
- Package contents: 1 ready-to-connect internal filter with filter sponge and activated carbon cartridge, air intake nozzle, 3 suction holders and 150 cm cable

JBL PC i30 base plate

JBL PC i30/ProFlow t300/500 suction cups

JBL PC i30 O-ring

JBL PC i30 water outlet with regulation

JBL PROCRISTAL i30

Product information

Clean and healthy water
Plant and food remains and metabolic substances lead to a deterioration of the water quality in the aquarium. Good water quality is necessary for healthy fish and plants. This can be achieved by aquarium filters. The filters suck in the aquarium water and remove the pollution and waste materials from the water.

Effective
The JBL ProCristal has its own filter chamber for dedicated filter material to combat algae growth or for especially clear water. The aquarium water flows slowly over a large surface area into the filter, where it is cleaned and then pumped back into the aquarium. The outlet of the filter is infinitely variable with a slider.

Safe
Its fine pores make it safe for small fish and shrimps.

JBL grants a guarantee of 4 years.
