

JBL double stopcock+quick coupling

For connecting, disconnecting & shutting off hoses

Suitable for:

- A quick release coupling helps when technical devices such as external filters need to be disconnected from aquarium-mounted hoses for cleaning
- To assemble: cut through the hose, attach the hose ends to the quick release coupling and secure from slipping with lock nuts
- Freshwater and marine water resistant, extremely robust POM/ABS plastic. Not designed for tap water pressure (4 bar)
- The full water flow is maintained. No reduction in performance when used on technical equipment
- Package contents: 1 quick release coupling with stopcocks

JBL double stopcock+quick coupling

Product information

Connecting technical equipment to the aquarium using hoses can mean that the hoses have to be completely dismantled for cleaning etc.

Quick-release couplings make dismantling the technical equipment much easier: just close the stopcocks on the quick release coupling, disconnect the quick release coupling and the technical product is separated from the aquarium for cleaning etc.
