

Aquarium main food wafers for crabs+crayfish (1-20cm)

Suitable for:

- Complete diet with fish meat and shrimp meat for beautiful colours and healthy growth in crabs & crayfish
- High-quality, natural carotene (astaxanthin) from spirulina algae ensures beautiful colour formation in e. g. Cherax and Procambarus species
- Ideally balanced ratio of animal and vegetable proteins for healthy growth and trouble-free moulting
- Prebiotic & sinking crab & crayfish food: special balast substances in the food provide the beneficial intestinal bacteria with nourishment for healthy digestion
- Package contents: original sealed, air- and light-tight, recyclable tin with dosing aid in the lid

JBL PRONOVO CRABS WAFER M

Product information

Biologically speaking, the term "crustaceans" is a generic term that includes shrimps, prawns, crabs and crayfish. When it comes to food, we can easily group all claw-bearing species, including crabs (with a rounded shell) together, as their feeding habits are very similar. JBL PRONOVO CRABS therefore contains shrimps and fish, but also vegetable ingredients such as spinach and spirulina. Wood fibres as dietary fibres are also included.

When feeding several crayfish or crabs in an aquarium, it can be useful to feed them the wafers one after the other. The fastest & strongest one gets the first wafer and then the others can be supplied with "their" wafers. They find food extremely quickly and reliably through their sense of smell. Therefore it is not necessary to throw a large amount of wafers into an aquarium. Needs-based individual feeding is always more sensible. A plastic tube can be very helpful for getting a wafer to one specific spot.

JBL PRONOVO food is prebiotic

Scientists are agreed that prebiotic food promotes digestion and thus health. There is another essential aspect: with better digestion, less is excreted and the water is thus less polluted, causing fewer algae problems and keeping the water cleaner.

Ahead through research

The results of JBL research expeditions, together with the knowledge of the JBL research and development team, have produced optimal, balanced food mixtures made from high-quality ingredients.

 Technical data

 Delivery head

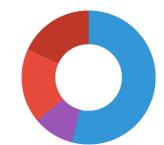

JBL PRONOVO CRABS WAFER M

Food type	food wafer
Sub product type	Complete food for invertebrates in aquariums
Dosing	Feed 1 – 2 times a day, as much as can be eaten within a few minutes

Analytical components

Crude protein	33 %
Fat content	6 %
Crude fibre	11 %
Crude ash	11 %

III Composition

shrimp meal
green meal
salmon meal
soy bean meal
rice meal
wheat germs
spinach
Beet pulp
Wood fibre
spirulina
yeast extract
Mediterranean herbs

II+ Additives

Colourings	
are not added by JBL	

Antioxidants

1b306(i)
